

TD-104: 1 In-4 Out Video Distribution Amplifier

The TD-104 is a high quality video distribution amplifier with four video outputs. Standard BNC type input and output connectors enable the TD-104 to be used with other CCTV amplifiers, switchers, cameras, monitors and VCRs, etc.

Features:

- Video input
- 4 video outputs
- Rack-mountable using optional rack mount kit

Specifications:

Model:	TD-104:
Video Input	1-2v pp/75Ω, BNC
Video Output	1-2v pp/75Ω, BNC
Video Bandwidth	10MHz ±3dB
Signal/Noise Ratio	>55dB
Power Requirement	230v AC, 50Hz
Power Consumption	3W max
Dimensions	44(H) x 240(W) x 240(D)mm
Weight	2.2kg
