

## TD-204: 2 In-4 Out Video Distribution Amplifier

The TD-204 is a high quality double video distribution amplifier. External slide switch allows the distribution of one video input to eight video outputs or two video inputs to four video outputs.

Standard BNC type input and output connectors enables the TD-204 to be used with other CCTV amplifiers, switchers, cameras, monitors and video tape recorders.

### Features:

- 2 Video input
- 8 (2 x 4) video outputs
- Rack-mountable using optional rack mount kit

### Specifications:

Model:	TD-204:
Video Input	1-2v pp/75Ω, BNC
Video Output	1-2v pp/75Ω, BNC
Video Bandwidth	10MHz ±3dB
Signal/Noise Ratio	>55dB
Power Requirement	230v AC, 50Hz
Power Consumption	6W max
Dimensions	44(H) x 216(W) x 240(D)mm
Weight	2.5kg
